

PARTYOF2.

WHO WE ARE

Evolution in comfort, design, craftsmanship and performance

Born in the Italian fashion manufacturing region of Emilia Romagna, Partyof2 is a technical performance riding outerwear company with a relentless commitment to quality and attention to detail.

Our driving purpose is to create apparel that gives users the unique feeling of performing with the greatest comfort, yet at the same time, looking refined.

Named after the core of equestrian sports: a Partyof2, a team made of a rider and a horse, whose combined performance is what truly makes the sport unique.

WHAT WE DO

We research and develop very specialized textiles, because any product is only as good as the strength of its components.

We study the correct fitting, because Partyof2 garments are tailored to suit their intended use.

We test the products with top international riders in real sporting conditions: their feedback leads us to the perfection of construction methods and technical details.

It is only at this point, after establishing the correct balance between athletic fit and performance fabric, that we design an entire collection around a specific model.

PARTYOF2 COLLECTIONS

Displayed and praised at major equestrian events worldwide, created on our models and manufactured in a wide range of classical or contemporary colors.

Our unique ready-to-wear styles are available for you now at www.partyof2.it

Each of our collections is created on one specific model, for example:

The Thoroughbred Collection is based on The Classic Jacket model (see page 18).

The World Cup Jumping Collection is designed based on The Hooded Jacket model (see page 20).

This way you'll immediately know which model you prefer after buying one piece of our collection, and having tested it carefully and washed it several times to check its durability, you can then decide to design your own style based on this exact model.

Explore our webpage and get your favorite garment within two to three working days.

YOUR PRIVATE LABEL

With so many riders appreciating our expert fusion of craftsmanship, technology and design our consequent mandate is to push the boundaries of our collections and deliver a complete custom-made solution.

Based on our unrivaled models, your private label collection will be constructed with colors, embroideries and looks that reflect and enhance your team's unique spirit.

Each of our garments are carefully handmade, this is why **no minimum quantity** is required to manufacture your order.

Your equestrian team can now train in maximum comfort and with the precise image that you wish to endorse - your image!

CORPORATE CUSTOMERS
